Atrium Company Showcases

Atrium Company Showcases are a great opportunity to meet with industry representatives informally to learn more about the companies represented. If you are interested in finding out more about these companies, be sure to stop by the atrium. This is another great way to build your network!

Company Presentations

Many companies hold a presentation the evening prior to their on-campus interviews. These sessions offer you the opportunity to learn more about the company, its culture, and specific summer and permanent job opportunities. It is highly recommended - and for some companies, mandatory - that you attend all presentations conducted by the companies for whom you have scheduled an interview appointment.

Many students attend presentations even if they will not be interviewing with the company. This is a great way to learn more about the company, make connections, and network with representatives from companies you may have an interest in working for in the future.

To access information regarding company presentations, you must be registered with [CornellTRAK](#).
